DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection. The Applicant has amended the claims changing the scope of the claims requiring a new search an new rejection.

Terminal Disclaimer

2. The terminal disclaimer filed on 13 May 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6776785 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-7, 9-11, 13-21, and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Gifford et al. 5904697.

Gifford et al. teaches a one-piece anastomosis device for connecting a graft vessel to a target vessel, comprising: a body formed from superelastic material, the body deformed from a constrained configuration to an unconstrained configuration; wherein in the unconstrained configuration the body includes at the distal end thereof a plurality of inner flange member forming an inner flange and includes at the proximal end thereof a

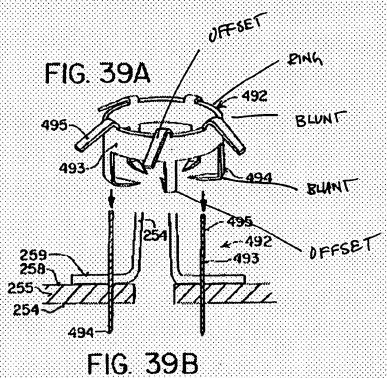

Application/Control Number: 10/810,170 Page 3

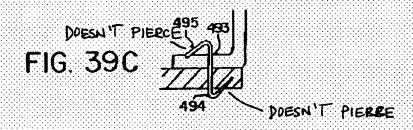

Art Unit: 3731

plurality of outer flange member forming an outer flange; wherein at least one said inner flange member is substantially radially offset from at least one said outer flange member; and wherein at least a portion of the body between the inner flange and the outer flange has substantially the same diameter in both the constrained configuration and the unconstrained configuration; the constrained configuration and the unconstrained configuration includes a substantially rigid ring; wherein at least on of the inner flange member is substantially blunt; wherein at least one of the outer flange member substantially blunt; wherein at least one of the inner flange member substantially does not pierce the target vessel when the body is in the unconstrained configuration; wherein at least on of the outer flange members substantially does not pierce the target vessel when the body is in the unconstrained configuration; wherein at least on of the outer flange members substantially does not pierce the target vessel when the body is in the unconstrained configuration; wherein the superelastic material is nickel-titanium alloy; wherein the number of inner flange members is equal to the number of the outer flange members (col. 48, line 9-col. 49, line 12).

Application/Control Number: 10/810,170

Art Unit: 3731

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Application/Control Number: 10/810,170

Art Unit: 3731

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Remarks

6. The Examiner regrets the indication of allowable subject matter as stated in the telephone interview with Brian Schar on 19 July 2005. The Examiner has not cancelled claims 10-15 as discussed in the interview.

Contacts

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael G. Mendoza whose telephone number is (571) 272-4698. The examiner can normally be reached on Mon.-Fri. 8:00 a.m. - 5:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anh Tuan Nguyen can be reached on (571) 272-44963. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
